

METER CONNECTION ADAPTORS

Meter connection adaptors allow you to change the size of your meter connection without changing swivels. For instance, you can turn an existing 10LT connection into a 20LT connection, or you can use one of our adaptors to attach a new connection swivel to an existing one. Special needs can be accommodated as well — call us with your particular request..

- Use existing connections
- No need to repipe existing meter installations
- Upsize or downsize meters with minimal effort
